

RELIABLE LABOR WANTED.

The Truckee Republican publishes the following:

We have upon our desk several letters purporting to come from men in search of employment, inquiring as to the chance of obtaining employment, in this vicinity. To such inquiries we would say to men who want to work, who do not want a job simply for the purpose of accumulating sufficient to enable them to get on a drunk or to take them to the next town. Truckee offers good inducements. Our mill-men complain, and not without cause, that a great many men who apply to them for work and whom they are compelled to hire, are incompetent, shiftless and wholly unreliable; that frequently they will work for a few days only until they get money enough for whisky, a few square meals, or money enough to take them to another town, when they will quit their jobs without reason and without notice of their intention to do so, thus compelling the employers to find another man on a moment's notice, who is liable to prove as worthless as his predecessor. The writer knows, from his own experience that there is more truth than romance in this statement of the situation. It is certainly discouraging and is a serious obstacle in the way of the settlement of the vexed problem concerning capital and labor. Those who toil for wages should understand the responsibility which rests upon them, and work for the interests of their employers. Their interests are identical. The employer should also interest himself in the condition of his workers, in this: He should encourage them in habits of industry and sobriety, warn them against evil associations, provide for their comfort in every way possible and put a premium upon perseverance. Again we will say that those who desire to labor in the true meaning of the word, who wish to accumulate, who are ambitious to provide pleasant homes for themselves and their families, Truckee offers good inducement.

"LOGAN AND POWDERLY"

It is stated that Franklin Assembly, K. of L., No. 2373, of Martinsburg, W. Va., recently passed a resolution nominating Logan for President and Powderly for Vice President. If the Assembly has done any such thing it has violated one of the strictest rules of the Order—that concerning the introduction of politics, and has done a foolish thing also, not only in view of the opinions held by working men generally concerning those of their number who use labor organizations as stepping stones to political office, but also in view of the differences now existing between the Unions and the Knights.

If the Knights of Labor ever take effective part in politics it will be by action from headquarters toward local assemblies, and not by that of local assemblies toward headquarters, and it is not likely that a professional politician would, in that case, be given first place and the labor representative second.

Persons who have not given attention to the plan of the K. of L. organization are likely to be led astray often by action of irresponsible and unimportant branches of the Order, which happen for the moment to be under the control of cranks or politicians.

A Chance for Some Nevada Editors.

Journalism is taking a spurt in Italy. In Naples there is a regular newspaper reading c-aze, and even the beggars gather around some fortunate possessor of a daily paper as he reads aloud in the street. But the people soon get tired of any one paper and clamor for a new one. The consequence is that almost every day some paper dies and a new one takes its place. One of the most certain ways of killing a newspaper in Italy, by the way, is to fill it with news. What they want is good local lies and blood curdling sensations.

The Lyon county Democratic primaries will be held Saturday, August 23rd; County Convention Sept. 4th, at Dayton, to choose seven delegates for the Elko Convention, Sept. 9th, and also nominate a county ticket.
